Weapon Mastery · page 2/2

Every weapon has a mastery property. Only some classes can use it (Barbarian, Fighter, Paladin, Ranger, Rogue): at level 1, 2 weapon kinds (3 for the Fighter), more later. You can change your choice after a Long Rest.

CL Cleave

If you hit a creature with a melee attack using this weapon, you can make another melee attack with it against a second creature within 5 ft of the first that is also within your reach. On a hit, the second creature takes the weapon's damage, without your ability modifier (unless negative). Once per turn.

Weapons: Greataxe, Halberd.

GR Graze

If your attack roll with this weapon misses, the creature still takes damage equal to the ability modifier you used for the attack (same damage type as the weapon).

Weapons: Glaive, Greatsword.

NI Nick

You can make the extra attack of the Light property as part of the Attack action instead of as a Bonus Action. Once per turn.

Weapons: Dagger, Light Hammer, Scimitar, Sickle.

PU Push

If you hit, you can push the creature up to 10 ft straight away from you if it is Large or smaller.

Weapons: Greatclub, Heavy Crossbow, Pike, Warhammer.

SA Sap

If you hit, the creature has Disadvantage on its next attack roll before the start of your next turn.

Weapons: Flail, Longsword, Mace, Morningstar, Spear, War Pick.

SL Slow

If you hit and deal damage, you can reduce the creature's Speed by 10 ft until the start of your next turn. Multiple Slow hits do not stack beyond 10 ft.

Weapons: Club, Javelin, Light Crossbow, Longbow, Sling, Whip.

TO Topple

If you hit, the creature makes a Constitution save (DC 8 + the ability modifier you used + your Proficiency Bonus) or has the Prone condition.

Weapons: Battleaxe, Lance, Maul, Quarterstaff, Trident.

VE Vex

If you hit and deal damage, you have Advantage on your next attack roll against that creature before the end of your next turn.

Weapons: Blowgun, Dart, Hand Crossbow, Handaxe, Rapier, Shortbow, Shortsword.

Properties

Ammunition. Each attack uses 1 piece of ammunition; drawing it is part of the attack. After a fight, spend 1 minute to recover half of what you used (rounded down).

Heavy. Disadvantage on attack rolls if the weapon is Melee and your Strength is below 13, or Ranged and your Dexterity is below 13.

Loading. Only one piece of ammunition per action, Bonus Action or Reaction, regardless of how many attacks you have.

Reach. Adds 5 ft to your reach with the weapon, including for Opportunity Attacks.

Two-Handed. Requires two hands to attack with it.

Finesse. Use your Strength or Dexterity modifier for both the attack and damage rolls (same for both).

Light. After the Attack action with a Light weapon, make 1 extra attack as a Bonus Action with a different Light weapon, without your ability modifier to damage (unless negative).

Range (normal/long). Disadvantage on attacks beyond normal range; you cannot attack beyond long range.

Thrown. You can throw the weapon for a ranged attack and draw it as part of the attack; a Melee weapon uses the same ability modifier as in melee.

Versatile. Can be used with one or two hands; the damage in parentheses applies when used two-handed in melee.

Improvised Weapon. Any object you can wield: 1d4, damage type set by the GM. Thrown: 20/60 ft.

Unarmed Strike. 1 + Strength modifier bludgeoning, or Grapple, or Shove.

Core Rules

PB: Proficiency Bonus · Str / Dex / Con: ability scores

Ability checks. Passive check: 10 + modifiers; +5 with Advantage, −5 with Disadvantage. Picking a lock: Dexterity check with Thieves' Tools (and proficiency).

Actions. Attack · Dash (extra movement = Speed) · Disengage (no Opportunity Attacks) · Dodge (attacks against you have Disadvantage; Advantage on your Dex saves) · Help · Hide · Influence · Magic · Ready · Search · Study · Utilize.

Advantage / Disadvantage. Roll 2d20, keep the higher / lower. They don't stack; both cancel out: roll 1d20.

Bonus Action. One per turn, only if a feature, spell or rule grants it.

Concentration. Ends if you cast another Concentration spell, are Incapacitated or die, or take damage and fail a Con save (DC 10 or half the damage, whichever is higher, max 30).

Critical Hit. Natural 20 on an attack: always hits, and all damage dice are doubled (Sneak Attack dice included). Natural 1: always misses.

Falling. 1d6 bludgeoning per 10 ft (max 20d6), then Prone.

Light. Dim light (Lightly Obscured): Disadvantage on sight-based Perception. Darkness (Heavily Obscured): Blinded.

Object interaction. One free interaction per turn (draw a weapon, open a door…); more require the Utilize action.

Opportunity Attack. Reaction: one melee attack against a creature you can see leaving your reach. Avoided by Disengage; no teleport or forced movement.

Ranged attack in melee. Disadvantage if a hostile creature that can see you and isn't Incapacitated is within 5 ft.

Reaction. One, until the start of your next turn.

Resistance / Vulnerability. Damage halved (round down) / doubled. No stacking; order: modifiers, then Resistance, then Vulnerability.

Rest. Short: 1 hour, spend Hit Dice (die + Con mod.). Long: 8 hours (6 asleep), once per 24 h: all HP, all spent Hit Dice, Exhaustion −1.

Ritual. Casting takes 10 extra minutes, no spell slot used.

Rounding. Round down, unless a rule says otherwise.

Round. 6 seconds. Initiative: Dexterity check; Surprised = Disadvantage.

Sneak Attack (Rogue). Once per turn, Finesse or Ranged weapon: Advantage on the attack, or a non-Incapacitated enemy of the target within 5 ft of it and no Disadvantage.

Standing up / crawling. Standing costs half your Speed. Crawling: 1 extra foot per foot.

Stabilizing. Help action, Wisdom (Medicine) DC 10: Stable = 0 HP, no more death saves.

Death saves. d20 of 10+ = success, 1 = 2 failures, 20 = regain 1 HP. 3 successes: Stable; 3 failures: dead. Instant death if excess damage ≥ HP max.

Difficult terrain. Each foot costs 1 extra foot (not cumulative).

Through other creatures. Allies, Incapacitated creatures or creatures 2+ sizes apart. A non-ally's space is difficult terrain.

Unarmed Strike. Str mod. + PB; 1 + Str mod. bludgeoning. Or **Grapple** (Grappled) / **Shove** (push 5 ft or Prone): DC 8 + Str + PB, target's choice of Str or Dex save. Escape a grapple: action + Str (Athletics) or Dex (Acrobatics).

Unseen attacker / target. Target you can't see: Disadvantage. Attacker the target can't see: Advantage. A Hidden attacker is revealed, hit or miss.
