GIANT INSECT (5E, 2024 RULES) – DESCRIPTION

Level 4 – Conjuration
Casting Time: Action · Range: 60 feet
Components: V, S · Duration: Concentration, up to 10 minutes
Classes: Druid

You summon a **giant centipede, giant spider, or giant wasp** of your choice into an unoccupied space you can see within range. The creature uses the **Giant Insect** stat block from the SRD, according to the choice made.

It **disappears** when it drops to 0 Hit Points or when the spell ends. It is an **ally**, shares your initiative count but acts **right after you**, and obeys your verbal commands. Without commands, it takes the **Dodge** action.

Higher-level slot: the stat block's level is that of the slot used; its Hit Points increase by 10 for each spell level above 4.

🎲 Quick summary:

1. You choose the insect type and place it within range (60 ft).
2. It acts right after you, same initiative.
3. It obeys verbal commands; without any, it dodges.
4. It disappears at 0 HP or when the spell ends.

⚠ Change from 2014

In 2014, the spell turned up to 10 centipedes, 3 spiders, 6 wasps, or one scorpion into giants. In 2024, it **summons a single insect** with its stat block.

⚠ Flaw in the rule and fixes Table rule

The text doesn't say what the insect does without your commands beyond Dodge, nor how to handle its action. Fix: stick to the text (verbal commands, Dodge by default).

💡 Narrative option: Table rule

The DM can describe clacking legs, a glistening carapace, clicking mandibles.

Step 1 – Choose the type:

Centipede, spider, or wasp: each has its stat block in the SRD.

Step 2 – Summon it:

In an unoccupied space you can see within range (60 ft). It is an ally and shares your initiative, acting right after you.

Step 3 – Give a command:

On your turn, a verbal command is enough. Without a command: Dodge action.

Step 4 – End of the spell:

At 0 HP or when concentration ends, the insect disappears.

Example: Léna casts Giant Insect with a level 5 slot and chooses a wasp. It acts right after Léna. Next turn, Léna commands "attack the guard": the wasp attacks using its stat block.

⚠ Debate points and table options:
Table rule

Exact stats
Exact values (attacks, HP) depend on the SRD stat block. **Option**: give the values at the table before the game.

Non-verbal command
The text says “verbal commands”. **Option**: a gesture is enough; or you must speak (so no Subtle Spell).

Initiative
It acts right after you. **Option**: a separate turn; or merged with yours.

If concentration breaks
The creature disappears. **Option**: it persists until the end of your next turn.

Higher-level slot
HP increase by 10 per level. **Option**: keep as is.

⚠ Rule clarifications (answers found on the web, reworded):

Dispel and duration
A summoning spell with a duration can be ended by *Dispel Magic*, and the caster can end it.

Concentration: range and sight
To keep concentrating, you don’t need to stay in range or keep the spell in sight, unless the spell or another feature says so.

These points remain open to discussion: your feedback is welcome to refine this sheet.
