Level 3 – Conjuration
Casting Time: Action · Range: 60 feet
Components: V, S · Duration: Concentration, up to 10 minutes
Classes: Druid, Ranger

You conjure nature spirits that appear as a **Large pack of spectral animals** in an unoccupied space you can see within range. The pack lasts for the duration and you choose its animal form (wolves, serpents, birds...).

You have Advantage on Strength saving throws while within 5 feet of the pack. When you move on your turn, you can also move the pack up to 30 feet.

Whenever the pack moves within 10 feet of a creature you can see, or a creature you can see enters or ends its turn within 10 feet of the pack, you can force it to make a **Dexterity saving throw**. On a failure: **3d10 Slashing damage**. A creature makes this save only once per turn.

Higher-level slot: damage increases by 1d10 per slot level above 3.

🎲 Quick summary:

1. You create a spectral pack within range (60 ft).
2. It moves with you (30 ft in addition to your movement).
3. A creature it approaches (10 ft) makes a Dexterity save.
4. Failure: 3d10 Slashing, once per turn per creature.

⚠ Change from 2014

In 2014, the spell summoned real creatures (wolves, etc.) that acted on their own. In 2024, it is a **spectral pack** that moves with you.

⚠ Flaw in the rule and fixes Table rule

The text doesn't say who controls the pack between turns or how to block it. Fix: announce movement and targeting rules.

💡 Narrative option: Table rule

The DM can describe spectral wolf shapes leaping, serpents hissing, a growl in the air.

Step 1 – Appearance:

You choose an unoccupied space you can see within range (60 ft) and the pack's animal form. Concentration, 10 minutes.

Step 2 – Move the pack:

On your turn, when you move, you can also move the pack up to 30 ft to an unoccupied space you can see.

Step 3 – Dexterity save:

When the pack moves within 10 ft of a visible creature, or a creature enters or ends its turn there, you can force a Dexterity save.

Step 4 – Damage:

Failure: 3d10 Slashing damage. Only once per turn per creature.

Example: Léna (Druid, DC 14) conjures a pack of wolves. On her turn, she moves and moves the pack 30 ft toward an ogre. The ogre is within 10 ft: Dexterity 8 against 14, a failure, 3d10 = 17 Slashing damage. No further save for it this turn.

⚠ Common questions:

Does the pack attack?

No: it deals damage through Dexterity saves when it moves or when someone approaches.

How much damage per turn?

Once per turn per creature: 3d10 Slashing on a failure.

Can I move it every turn?

Yes: when you move on your turn, 30 ft.

Must I see the target?

Yes: a creature you can see.

What size is it?

Large.

Are allies affected?

You choose whom to force: the text says "a creature you can see". Table rule

What do I gain?

Advantage on Strength saves within 5 ft of the pack.

How long does it last?

Concentration, 10 minutes.

⚠ Debate points and table options:

Table rule

Who rolls saves?

The caster chooses the creature forced to save. **Option**: the caster can spare allies; or everyone is affected.

Moving the pack

The text limits movement to your turn. **Option**: the pack can also move off-turn (reaction); or only on your turn.

Can the pack be targeted?

It's spectral. **Option**: intangible and immune; or attackable by area spells.

Measuring 10 ft

Option: measure from the edge of the pack's space.

Higher-level slots

Damage increases by 1d10. **Option**: keep as is.

⚠ Rule clarifications (answers found on the web, reworded):

Dispel and duration

A spell with a duration like this one can be ended by *Dispel Magic*.

Concentration: range and sight

To keep concentrating, you don't need to stay in range or keep the spell in sight, unless the spell or another feature says so.

These points remain open to discussion: your feedback is welcome to refine this sheet.
