Level 5 – Evocation
Casting Time: Action · Range: 120 feet
Components: V, S, M (a shard of glass) · Duration: Concentration, up to 10 minutes
Classes: Wizard

You create an **invisible wall of force** at a point within range, oriented any way you like (horizontal, vertical, or angled), floating or resting on a solid surface. You choose a shape:

A **dome or globe** with a radius of up to 10 feet, or a **flat surface** made of up to ten 10-foot by 10-foot panels. The wall is 1/4 inch thick.

If the wall appears through a creature's space, it is pushed to one side, the caster's choice. Nothing can physically pass through it. It is **immune to all damage**, *Dispel Magic* can't end it, *Disintegrate* destroys it instantly. It extends into the Ethereal Plane.

🎲 Quick summary:

1. You create an invisible wall within 120 ft.
2. Dome or globe (10 ft) or up to 10 panels of 10 ft.
3. Nothing passes through; no save.
4. Concentration, 10 minutes.

⚠ Flaw in the rule and fixes Table rule

The text doesn't say what happens to spells and sight passing through the wall. Fix: the DM announces before the game what it blocks.

💡 Narrative option: Table rule

The DM can describe the air freezing, a bump against an invisible barrier.

Step 1 – Choose the shape:

Dome or globe (radius up to 10 ft) or a surface of 10-ft panels (10 at most).

Step 2 – Place the wall:

Within 120 ft, oriented as you like, floating or resting.

Step 3 – Creatures in the space:

They are pushed to one side of the wall, the caster's choice.

Step 4 – Duration:

Concentration, 10 minutes. The wall is immune to all damage.

Example: Isa places a vertical wall of 6 panels in a 10-ft-wide corridor. The goblins can't pass. They can't damage it.

⚠ Common questions:

How long does it last?

Concentration, up to 10 minutes.

Can it be damaged?

No: it is immune to all damage.

Does Dispel Magic end it?

No.

What destroys it?

Disintegrate, instantly.

Is it visible?

No, it is invisible.

Is a saving throw needed?

No.

How thick is it?

1/4 inch.

⚠ Debate points and table options: Table rule

No saving throw

The wall has no save. **Option**: keep it; or allow a save for creatures being pushed.

Spells and sight

The text says nothing can physically pass through. **Option**: it also blocks spells; or vision (invisible, so no).

Trapping a creature

A dome can trap. **Option**: keep it, and announce that breathable air remains.

Teleportation

The text says nothing. **Option**: teleportation works; or is blocked on the Ethereal Plane.

Concentration

If the caster loses concentration, the wall disappears. **Option**: keep it.

⚠ Rule clarifications (answers found on the web, reworded):

Dispel and duration

A permanent effect can be dispelled unless its description says otherwise: here the wall's text forbids it. The caster can still end it.

Concentration: range and sight

To keep concentrating, you don't need to stay in range or keep the spell in sight, unless the spell or another feature says so.

These points remain open to discussion: your feedback is welcome to refine this sheet.
