Level 2 – Conjuration
Casting Time: Action · Range: 60 feet
Components: V, S, M (a bit of spiderweb) · Duration: Concentration, up to 1 hour
Classes: Sorcerer, Wizard

You conjure a mass of sticky webbing at a point within range. It fills a **20-foot Cube** for the duration. The webs are **Difficult Terrain** and the area within them is **Lightly Obscured**.

If the webs aren't anchored between two solid masses (such as walls or trees) or layered across a floor, wall, or ceiling, the web collapses on itself and the spell ends at the start of your next turn.

The first time a creature enters the webs on a turn or starts its turn there, it must succeed on a **Dexterity saving throw** or have the **Restrained** condition while in the webs or until it breaks free. A Restrained creature can use its action to make a **Strength (Athletics) check** against your spell save DC; on a success, it's no longer Restrained.

The webs are **flammable**: a 5-foot Cube exposed to fire burns away in 1 round, dealing 2d4 Fire damage to any creature that starts its turn in the fire.

🎲 Quick summary:

1. You place a 20-ft Cube of web within range (60 ft), anchored.
2. Creatures entering or starting their turn in it make a Dexterity save.
3. Failure: Restrained. To break free: action + Athletics vs your DC.
4. Fire destroys the web and hurts (2d4 Fire).

⚠ Flaw in the rule and fixes Table rule

The text doesn't say how to **place** the Cube or how to handle flying or large creatures. Fix: the DM announces before the game how the web is anchored and what counts as "entering".

💡 Narrative option: Table rule

The DM can describe thick strands pulling taut between the walls, clinging to boots, trembling at the slightest movement.

Step 1 – Place the web:

You choose a point within range (60 ft): the 20-ft Cube must be anchored between two solid surfaces, or layered across a flat surface. Otherwise the web collapses.

Step 2 – Enter the web:

Any creature that enters the web for the first time on a turn, or starts its turn there, makes a **Dexterity** save against your spell save DC.

Step 3 – Failure: Restrained:

The creature is **Restrained** (see the condition). It can use its action to try to break free.

Step 4 – Break free or burn:

Breaking free: **Strength (Athletics) check** against your DC. Or burn the web: 1 round per 5-ft Cube, 2d4 Fire damage to whoever starts their turn in the fire.

Example: Eliot (Sorcerer, DC 14) casts Web in a corridor. A goblin enters the web: Dexterity 10 against DC 14, a failure, it is Restrained. On its turn, it uses its action: Strength (Athletics) 8 against 14, a failure. It stays Restrained.

⚠ Common questions:

Is a save needed to enter?

Yes, on the first entry of the turn or at the start of the turn in the web.

How do I break free?

Action + Strength (Athletics) check against the caster's spell save DC.

Can an ally help me break free?

The text doesn't provide for it. Table call.

Table rule

Does the web slow movement?

Yes: it is Difficult Terrain.

Can you see inside?

The area is Lightly Obscured.

Does the web always collapse?

If not anchored or layered, it disappears at the start of your next turn.

Does fire affect it?

Yes: a 5-ft Cube exposed to fire burns in 1 round (2d4 Fire damage to whoever starts their turn in it).

How long does it last?

Concentration, up to 1 hour.

⚠ Debate points and table options:

Table rule

Who is affected?

The text says "a creature". **Option**: allies and enemies alike (the web makes no difference); or the caster can choose not to hinder allies.

Flying creatures

The text doesn't say if a flyer above the floor is "in" the web. **Option**: if the Cube includes it, it is affected.

Large creatures

A Large creature occupies several squares: **option**: one save per turn, as soon as part of its space enters the web.

Anchoring

The text doesn't define "anchored". **Option**: at least two opposing solid surfaces, or a layered flat surface; the DM rules when the spell is announced.

Fire and spread

Option: a burned Cube doesn't ignite its neighbors; or fire spreads 5 ft per round.

⚠ Rule clarifications (answers found on the web, reworded):

Dispel and duration

The web is a spell with a duration: *Dispel Magic* can end it, and the caster can dismiss it.

Concentration: range and sight

To keep concentrating, you don't need to stay in range or keep the spell in sight, unless the spell or another feature says so.

These points remain open to discussion: your feedback is welcome to refine this sheet.
